ANALOG HANDHELD TYRE INFLATOR UNIV'AIR MH-UA

- LNE approval certificate.
- Large, easy to read, analog dial with rubber protective cover.
- Inflate or deflate your tyres up to 11 bar.
- Durable plastic and steel construction.
- Deflate precisely with a touch of button.
- Includes 1.5 m hose with clip-on chuck.

Compact and reliable

The analog handheld tyre Inflator is robust, precise, easy to use, and comes with a large analog dial for a clear reading.

Its 1.5 m air hose with clamp chuck lets you easily inflate your tyres up to 11 bar in complete safety.

Made in France. Includes LNE approval certificate.

*Air compressor required

Important: compressed air contains water and oil, use proper air filter between the source and device. Failure to do so will void the warranty.
